TailwindCSS

TOOLS
GIT   Github   ESlint   Prettier
VSCode   Webstorm   Dreamweaver
Figma   Photoshop   Adobe Illustrator

EMAIL TOOLS & CMS
GetResponse   Mailchimp   SendPulse
Unisender   Joomla   Bitrix24   WordPress

PROGRAMMING PRACTICES
Agile   Kanban   Scrum   Code review

OTHER TECH SKILLS
Advanced Windows user
1C and SAP as user
Tilda   GetCourse   iSpring

EXPERIENCE

2021 till now | Front-end developer & Web-designer // Nevskie Berega
Supporting and administration of company's websites: updating news, page review, setting up plugins (WordPress), development new pages. Creating landing pages from scratch (UI design) and from Figma templates. Implementing sliders, forms, tabs and other interactive elements. Responsive and adaptive designs.

2021–2022 | Front-end developer // RSSchool
I've developed more than 10 pet-projects ranging from simple landing pages (using pure HTML+CSS+JS) to full-fledged SPAs (based on React+Redux+TypeScript) with the implementattion of pages routing, localization, user registration, drag-n-drop functionality. Made UI design by Figma for SAPs. Lead the team of 3 people (Kanban). Code review.

2018–2021 | Markup developer (HTML/CSS) & Web-designer // Nevskie Berega
Creating regular email-templates from scratch and based on designed templates, email testing. Supporting and administration of company's websites (WordPress, Tilda). Design promo materials.

2017–2018 | Web-designer // Global Medical Products SPb
Design promo materials, preparing graphic materials (banners, flayers, presentations, mockups, certificates...).
